

**PRESS RELEASE (Naples, Florida) June 2, 2014:**

**Skena Ostomy Technologies, Inc.** continues to lead the industry with the introduction of innovative new products designed to provide normality and stabilize the lives of Colostomates and Ileostomates. Released this year are new composition skin friendly Hydrocolloid Perimeter Seal Tabs and Stoma Seal Rings to complement our popular Stoma Surround Sealant. The company has released a new revolutionary conventional drainable pouch and a vented disposable pouch to complement our EZ-Clean products. A unique 6 inch wide vented support belt was released to provide a way of handling the treatment of a user Parastomal Hernia. More new products are scheduled for release in 2014 because we are: “Dedicated to Improving Ostomy Lifestyle”. Further information can be reviewed at our web site: [www.ostomyezclean.com](http://www.ostomyezclean.com) or calling 239 263-9957 for more details. Skena Ostomy Technologies is the company that Ostomates go to for innovative products designed to make life normal with a stoma.
